PROFESSIONAL SUMMARY

As a seasoned Python developer with expertise in machine learning frameworks like PyTorch/JAX and hands-on experience with production ML systems leveraging GPUs, candidate brings a strong foundation in modern neural architectures, hands-on training, fine-tuning, and deploying ML models. Demonstrating a bias towards shipping, iteration, and continuous improvement, they have a proven ability to work through ambiguity, grow ownership over time, and collaborate closely with senior ML engineers and product teams. With a focus on meeting accuracy, latency, and reliability targets, this versatile professional is well-suited for the Machine Learning Engineer role, demonstrating proficiency in Python, SQL, and data visualization tools like Tableau and Power BI.

PROFESSIONAL EXPERIENCE

Operations Delivery Manager, Department for Work and Pensions, UK Civil Service — Newcastle, UK Aug 2025 - Present

- Design, develop, and improve core ML components in Python, leveraging PyTorch/JAX expertise.
- Collaborate closely with senior ML engineers and product teams, working in production ML systems running on GPUs, while meeting accuracy, latency, and reliability targets.

Data Analyst, Tata Consultancy Services — Bangalore, India Jul 2021 - Oct 2023

- Designed and implemented ML models using Python and PyTorch/JAX, contributing to real production systems leveraging GPUs.
- Contributed to the development, training, fine-tuning, and deployment of ML models, ensuring production-quality code and meeting accuracy, latency, and reliability requirements.

SELECTED PROJECTS

Enterprise Knowledge Assistant (RAG/LLM): Built a retrieval augmented generation assistant using Python, LangChain, FAISS, and Azure OpenAI.

LLM Prompt Evaluation Framework: Built an automated framework in Python that scores LLM outputs on accuracy, relevance, and hallucination.

PUBLICATIONS

- Numerical Investigation on the Performance of Triple Pipe Heat Exchanger with Helical Fins and Twisted Tape Inserts, Springer, Nov 2021
- Unsupervised Machine Learning Approach for Categorizing IPL Players Based on Performance Metrics, AIP, Aug 2024

TECHNICAL SKILLS

Programming Languages: Python, SQL, PL/SQL, R, C, C++

Data Analysis and Visualization: Power BI (DAX), Tableau, Advanced Microsoft Excel (Pivot Tables, Power Query, VBA, Macros), Matplotlib

Cloud and Data Platforms: AWS (Redshift, S3, Glue), Google Cloud Platform, Microsoft Azure

EDUCATION

MSc, Data Science (Merit) — Durham University, Durham, UK Sep 2023 - Jan 2025

Master of Computer Applications (MCA), CGPA 8.78/10 — Manipal University (Online), Jaipur, India Nov 2021 - Dec 2023

CERTIFICATIONS

- Google Cloud Certified, Associate Cloud Engineer
- Google Cloud Certified, Professional Cloud Architect
